

RTITB Over Head Gantry Crane

Course Introduction

This training is essential for operatives using any form of overhead gantry lifting equipment. The course aims to provide delegates with a thorough understanding of the hazards associated with operating such machinery. This includes having a working knowledge of how the various machines operate and to identify the major components of the machine and explain their functions, including weight limits, and to carry out an effective pre-use check.

COURSE TIMINGS & LIMITATIONS

- **Novice** | 8 Hours (Maximum 4 Students)
- **Refresher** | 6.5 Hours (Maximum 4 Students)

On completion of the RTITB course, you will receive a **E - Card & PDF Certificate**.

Please [contact us](#) for further information including availability.
