

# CITB Health & Safety Awareness (HSA) Labourers

## Course Introduction

Are you looking to work in the world of construction? The CITB Health & Safety Awareness is the perfect first step on your journey. The CITB Health and Safety Awareness (HSA) course is part 1 of a 2-part process to gain your CSCS Green Labourers Card.

We also provide the CITB HS+E test (part 2) here at Alpha Safety along with supporting our learners in their CSCS labourer card application. For more information on booking a test or purchasing a CSCS card package at a discounted rate, see your package options below!

## Course Pre-Requisites

Delegates must be competent in English at Operative level.

Please note, the Health & Safety Awareness Course and CITB Health, Safety & Environmental Test can't be sat on the same day in order to meet guided learning hours.

## Course Topics

- Module 1 - Legal & Management
- Module 2 - Health & Welfare
- Module 3 - General Safety
- Module 4 - High Risk Activities
- Module 5 - Environment

## Course Benefits

Anybody that requires site access, as a Labourer, must complete this course, in addition to the on-screen CITB Health, Safety and Environment Labourer Test, before applying for the Green Labourer's Card.

If you are booking on behalf of a CITB levy claiming organisation, please provide your unique levy number and learner national insurance number at the point of booking or on the day of the course. On course completion we will then submit your levy claim on your behalf.

The awarding body CITB issue all certificates via PDF format. This will be emailed to the course booking contact on successful completion of the course, once received from CITB.

**Assessment Method**

25 Multiple Choice Question Exam

**Qualification Expiry**

5 Years
